

History of State Actions on Immigration

- First federal immigration laws passed in late 1800s

History of State Actions on Immigration

- First federal immigration laws passed in late 1800s
- Prior to this, states were free to restrict immigration through local regulations

History of State Actions on Immigration

- First federal immigration laws passed in late 1800s
- Prior to this, states were free to restrict immigration through local regulations
- States generally enforced public policies to ensure they were getting only the types of immigrants they desired (i.e., usually white/caucasian)

History of State Actions on Immigration

- First federal immigration laws passed in late 1800s
- Prior to this, states were free to restrict immigration through local regulations
- States generally enforced public policies to ensure they were getting only the types of immigrants they desired (i.e., usually white/caucasian)
- Some policies more specifically included: conferred and removed rights of residence; forbade entrance of classes of immigrants; adopted entry taxes

Foundation of Federal Jurisdiction

- Series of SCOTUS cases in 1870s established exclusive legal authority (plenary power) of the federal gov't to regulate immigrant admissions

Foundation of Federal Jurisdiction

- Series of SCOTUS cases in 1870s established exclusive legal authority (plenary power) of the federal gov't to regulate immigrant admissions
- *Chy Lung vs Freeman* 1875: “The passage of laws which concern the admission of citizens...of foreign nations to our shores belongs to Congress, and not to the states.”

Foundation of Federal Jurisdiction

- Series of SCOTUS cases in 1870s established exclusive legal authority (plenary power) of the federal gov't to regulate immigrant admissions
- *Chy Lung vs Freeman* 1875: “The passage of laws which concern the admission of citizens...of foreign nations to our shores belongs to Congress, and not to the states.”
- The feds didn't set up rules on who should be admitted, but rather who should NOT be admitted – immigration was determined negatively

- National Origins Act of 1924: Established annual quota of 150K Europeans and formally banned Japanese immigration
- Bureaucratic system established to enact/administer these laws

Nativism and Language Laws

- Now that states couldn't technically exclude immigrants, they used their police and other powers to regulate the lives of immigrants

Nativism and Language Laws

- Now that states couldn't technically exclude immigrants, they used their police and other powers to regulate the lives of immigrants
- States could make life harder for immigrants, in theory leading to self-deportation

Nativism and Language Laws

- Now that states couldn't technically exclude immigrants, they used their police and other powers to regulate the lives of immigrants
- States could make life harder for immigrants, in theory leading to self-deportation
- Strong nativist movement arose in early 20th century, fueled by WWI; scientific racism; end of the frontier; growing complexity of American society

Nativism and Language Laws

- Some states created "Americanization" programs: learn the language, habits, and values of the U.S.
- States pushed for English-only laws – to be unified and patriotic everyone living in America should speak English
- Nebraska's Siman Language Law: English state's official language, every person in any capacity/school would teach all subjects in English. Foreign languages taught only after eight

The “Back Door”

- Seasonal migrants from Mexico were meeting local demands by performing low-skilled agricultural work, primarily in the southwest (CA and TX)

The “Back Door”

- Seasonal migrants from Mexico were meeting local demands by performing low-skilled agricultural work, primarily in the southwest (CA and TX)
- Restrictions on immigration from Europe and Asia basically left an employment gap that these migrants quickly filled

The “Back Door”

- Seasonal migrants from Mexico were meeting local demands by performing low-skilled agricultural work, primarily in the southwest (CA and TX)
- Restrictions on immigration from Europe and Asia basically left an employment gap that these migrants quickly filled
- TX and other southwestern states lobbied the federal gov't to exclude Mexican immigrants from quota laws, and to even ease restrictions

The “Back Door”

- Seasonal migrants from Mexico were meeting local demands by performing low-skilled agricultural work, primarily in the southwest (CA and TX)
- Restrictions on immigration from Europe and Asia basically left an employment gap that these migrants quickly filled
- TX and other southwestern states lobbied the federal gov't to exclude Mexican immigrants from quota laws, and to even ease restrictions
- Texas farmers, for example, pushed back against U.S. Border Patrol, and encouraged the unauthorized entry of Mexican labor across the Rio Grande

- The Great Depression reversed some of the Mexican immigration patterns. Tough economic conditions created a tough life and lots of social backlash against these immigrants who were vulnerable to public wrath
- Between 1928 and 1932 – local/state gov'ts “repatriated” to Mexico more than 500K people of Mexican origin, many of

The Bracero Program and Mexican immigration WWII

- With WWI many able-bodied young men went off to fight, and thus the “back door” became operational again

The Bracero Program and Mexican immigration WWII

- With WWI many able-bodied young men went off to fight, and thus the “back door” became operational again
- Mexican seasonal workers became the answer to American agriculture’s need for seasonal manual labor

The Bracero Program and Mexican immigration WWII

- With WWI many able-bodied young men went off to fight, and thus the “back door” became operational again
- Mexican seasonal workers became the answer to American agriculture’s need for seasonal manual labor
- The Bracero Program legally brought 4.6 million Mexican migrant workers to the U.S. over a 24 year time span

The Bracero Program and Mexican immigration WWII

- With WWI many able-bodied young men went off to fight, and thus the “back door” became operational again
- Mexican seasonal workers became the answer to American agriculture’s need for seasonal manual labor
- The Bracero Program legally brought 4.6 million Mexican migrant workers to the U.S. over a 24 year time span
- Push-pull between immigration policy and conflicting public/private interests

The Bracero Program and Mexican immigration WWII

- Mexican seasonal workers became the answer to American agriculture’s need for seasonal manual labor
- The Bracero Program legally brought 4.6 million Mexican migrant workers to the U.S. over a 24 year time span
- Push-pull between immigration policy and conflicting public/private interests
- Border patrol carried out mass apprehension campaign that detained and deported over one million Mexican immigrants
- Yet the INS more than doubled the number of bracero visas. Thus push/pull

Immigration Shifts from Legal to Illegal

- Immigration and National Act Amendments of 1965: abolished national origins quota system, allocated visas according to seven-category preference system

Immigration Shifts from Legal to Illegal

- Immigration and National Act Amendments of 1965: abolished national origins quota system, allocated visas according to seven-category preference system
- Reallocation did little to deter immigration

Immigration Shifts from Legal to Illegal

- Immigration and National Act Amendments of 1965: abolished national origins quota system, allocated visas according to seven-category preference system
- Reallocation did little to deter immigration
- Reduction in visas shifted immigration from legal to illegal because demand for labor was still as strong
